What sets Felix.Terminal apart?

Felix.Terminal is built to provide a convenient and practical experience for both merchants and customers. Felix.Terminal provides connection for a fleet of NFC-enabled Android devices.

For merchants

Felix.Terminal offers a secure, mobile, and easily scalable solution, requiring no additional hardware. It can be used on an unlimited number of devices, has full payment terminal functionality, and makes payments easy.

For customers

Felix.Terminal offers new acceptance channels and an improved customer experience by enabling the use of contactless payment methods virtually anywhere.
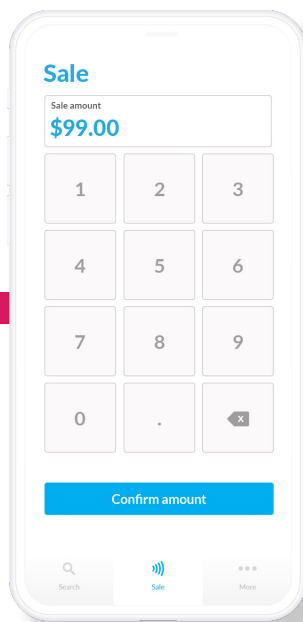

Take payments anywhere

Felix.Terminal is an android application that transforms your personal smartphone into a payment acceptance terminal, requiring NO additional hardware.
